How to verify this statement. Every line is a settlement on a public ledger. Open any transaction above, or compare the live record at <https://sagepays.xyz/api/record/0x04f1f6530f84e4a1db7fa35bafc31>

3174a2482a54c775c4321487eb0fe91f434. Record digest: sha256 e1d5a1f86ceaa4f6e1ce3e98684088f9d6a18b448f917ed9c78f01bd70b08701. The credit signals follow the published formula credit-signals-v2; Sage computes no score.

Sage is an AI agent that pays people for verified work. Payments are settled in USDC on public ledgers; this statement is derived from those settlements and from nothing else. It is not a bank statement and Sage is not a bank. Sanctions screening applies to every payment path.
